

As a citizen of this country, I would like to state my opposition to any changes that would weaken "Broadcast Ownership" laws. On the contrary, I would like to see previous changes, made in 1996, rolled back. At that time, ClearChannel owned 40 radio stations across the country. They currently own 1225. This seems to me, at least in some metropolitan areas, to be a monopoly of radio-waves. In the name of free speech I ask you to not weaken these laws further which would only benefit one company...to the detriment of every other citizen of this wonderful, free nation of ours.
